Project Status Report

Project Name	IDM T380	Date	7/27/20
Project Number	01	Reporting Period	7/20/20 - 7/27/20
Project Manager	Erik Martus	Project Owner/Client	Phil Sinatra

I. Accomplishments

a. Completed This Reporting Period

Product or Activity	Comments
Add svg coloring functionalit	Using a dummy svg image select tools and color svg
Add recents for color wheel	Color wheel will now save recent colors for later use
Export pdfs to svg	

b. Planned but Not Completed This Reporting Period

Product or Activity	Comments
Adding exported svgs to project	Erik ran into an issue with node on his machine that required extensive troubleshooting
Setting up a hosting environment	Erik prioritized troubleshooting
Creating basic gulp tasks	Nick was caught up with a midterm for another class

For additional project management templates visit www.mypmllc.com/project-management-resources/free-project-management-templates.

c. Cause of Variance, if any

d. Planned for Next Reporting Period

Product or Activity	Comments
Add svgs to project	Files require some tweaking to color properly
Add gulp tasks to project	Actually get this done this week
Add undo/redo functionality	Track changes made to coloring
Add warning modal	If changes have been made, notify users changes will not be saved
Add webpack configurations	Add webpack if deemed necessary/useful

II. Scope

a. Change Requests Made This Reporting Period

Product or Activity	Reason for Request	Approved or Disapproved

III. Schedule

a. Currently, Project is On, Behind or Ahead of Schedule (check one)

On Schedule	Behind Schedule	Ahead of Schedule
X		

For additional project management templates visit www.mypmllc.com/project-management-resources/free-project-management-templates.

b. Impact to Upcoming Milestones, Deliverable Due Dates or Project Due Dates

Milestone or Deliverable	Originally Planned Due Date	Newly Projected Date
Alpha	Week 7 - 8/3	
Beta	Week 10 - 8/24	
Final	Week 11 - 8/31	
Project Due Date		

c. Causes of Schedule Variance

Cause	Estimated Delay

d. Planned Corrective or Preventative Action

IV. Cost

a. Amount Spent

Planned Spend to Date	Actual Spend to Date	Cause of Variance

b. Impact to Budget or Contingency Funds

For additional project management templates visit www.mypmllc.com/project-management-resources/free-project-management-templates.

c. Planned Corrective or Preventative Action

d. Costs Planned for Next Reporting Period

V. Earned Value

* For reference, formulas can be viewed at http://www.mypmllc.com/project-management-resources/project-management-formulas/

	Past Period Cumulative	Current Period Cumulative	Current Reporting Period
Actual Cost (AC)			
Planned Value (PV)			
Earned Value (EV)			
Cost			
Cost Variance (CV)			
Cost Performance Index (CPI)			
Root Cause of Cost Variance			
Impact to Budget			
Schedule			
Schedule Variance (SV)			
Schedule Performance Index (SVI)			
Root Cause of Schedule Variance			
Impact to Schedule			

For additional project management templates visit www.mypmllc.com/project-management-resources/free-project-management-templates.

	Current Period Cumulative	Past Period Cumulative
% Planned		
% Spent		
% Earned		
Estimates at Completion (EAC)		
EAC (for ETC work performed at the present CPI)= [BAC/CPI]		
EAC (for ETC work considering SPI & CPI)= [AC+[(BAC-EV)/ (CPI*SPI)]		
Comments		
To complete performance index (TCPI)= Work remaining (BAC – EV) / Funds Remaining (BAC –AC)		

VI. Risk

Newly Identified Risk	Status / Comments

VII. Issues

Newly Identified Issues	Status / Comments
